Health for Kiddies-\$40.

What to do with children in the winwhen they so need out-of-doors and health giving fresh air, has long bothered fond fathers and Edith P. Kingman, in "An Outdoor Living Room Gave Health to Two Tots,' November Suburban Life tells of a \$40 balcony that solved the problem for one family. The chubby children shown in the illustration bear witness to the success of the plan. The scheme was simple. The balcony was built out over the pantry roof and here the kiddles were turned loose in fair weather and foul, all winter long.

A Father's Vengeance would have fallen on anyone who attacked the son of Peter Bondy of South Rockwood, Mich., but he was powerless before attacks of kidney trouble. "Doetors could not help him," he wrote, "s at last we gave him Electric Bitters and he improved wonderfully from taking six bottles. It's, the best kidney medi cine I ever saw." Backache, tired feel ing, nervousness, loss of appetite, warn of kidney trouble that may end in dropsy, diabetes or Bright's disease. Corn is drawn from the track in a wagon holding 5400 pounds and spouted directly to a bin in the cellar holding four loads. From this bin it is carried by an elevator to a bin holding 1400 bushels. Oats are carried to another part of the mill to a bin holding about 1000 bushels. Good water power, electric lighted, and telephone connections. The size of the main floor of the mill is about
